

Paddling on the River Crouch

Whether you're looking to paddle with like-minded people, develop your paddling skills, or saunter safely down the river, there's a wealth of information out there to help.

The [Go Paddling Website](#) offers a range of information on how to get started, what equipment and clothing you might need, as well as a range of videos and checklists on [how to stay safe this summer](#). You can also find launch points, pre-planned trails and challenges on [Paddlepoints](#). And you can also help others discover the places you paddle by pinning them to the map too.

You can use the Go Paddling website to search for [British Canoeing Affiliated Clubs](#), who are keen to help you develop friends as you SUP, kayak or canoe. They will often have a calendar of trips and training for you to get involved with. The clubs listed on the site have provided British Canoeing with evidence of the structure and safety systems they have in place, giving you peace of mind.

For those of you who prefer a course or session to develop your skills you can find our network of [delivery partners](#) here to get your paddling journey started.

And for those who may need some additional support to get started there is a list of both Clubs and Delivery partners with an interest in [Paddle-Ability](#).

Finally, but importantly, you can explore and get involved with our access and environment campaign [Clear Access Clear Waters](#). As well as signing the petition for fair, shared and sustainable open access on water, the site has information on why Check, Clean, Dry is so important so paddlers can help stop the spread, plus information on how to carry out, or take part in, a river or beach clean up with a Club or Delivery Partner.
